The digital version of 'Anatomy, Physiology, and Behavior' by A: Your question is very unclear and I am unable to understand what you want to achieve. If you just want to download and share some files then the direct download links

should be enough. Here is some of your code: /***** DOWNLOAD FILE END

*****/ `/*NewFragment();*/ if (downloadFragment == null) { downloadFragment = new`

`FragmentDownloader(); downloadFragment.setArguments(getIntent().getExtras()); downloadFragment.start(getActivity()); } }`

downloadFragment is the Instance of FragmentDownloader Class. A fragment doesn't have a start() method. You can implement

this in your own code or use the public API. Q: Proving the inequality $|a+b| \leq |a| + |b|$
