In HVRGUN you take on the role of an elite Assault Pilot, using your ship to fight a never-ending army of enemies. As the name suggests, you control your ship in a first-person perspective, dodging, shooting, and destroying the hordes of enemies that attack you. The game is chock-full of different weapons, upgrades, and equipment, making each playthrough feel unique. Fully Optimized for your Virtual Reality headsets like Oculus Rift and HTC Vive. Many VR missions, including Weapons Achievement and Air Force Missions, can be played on the go! Easy to start, hard to master. The game uses no in-app purchases, so you'll always have access to the best experience possible. HVRGUN is a VR experience that should be experienced by everyone. You can play the game sitting down or while walking around. Just strap in and dive into the action. LoveKami -Useless Goddess- is a visual novel that combined all of the elements of story and visual novel into one game. The premise of the story is as follows. Once you finish the game, you will always have the feeling of "What if?"... Why did she act like that? What if she was actually in love with me? Why did she treat me like this? Why did it end up like this...? Why am I the one left behind? The story is about the most simple love story that you'll come across in a visual novel. [Content Warning!] There will be excessive descriptions of yuri and more adult oriented content. As previously mentioned, there will also be some fantastically grotesque, excessive descriptions of death as well. [About the Content] - Yuri contents - Fantastical, grotesque descriptions of death - The story will end in a yuri scene [About the Team] Dekopon, the game's creator, is a fan of visual novels, and has been playing them for 10 years. This game is actually her first work. The dialogue was written by Kanioka, who is a writer/computer voice actor for animation, as well as a voice actor for games such as the Osomatsu Kingdom game, Fate/Grand Order's Unlimited Blade Works Online, and the Fire Pro Wrestling series. [About the Others] Kiki is a hardcore yuri game coder with over 17 years of experience in making pixel games. Chizuru is one of Kiki's most experienced and skilled collaborator and has been managing the development of this game. The pixel art was designed and drawn by Masayoshi. Also, we have added the vocals of the play-through's original song as an original soundtrack, "Shiroka." (A secret underground secret love-yuri project by the creators of the world-famous LoveKami game) [About the Screenshot] As always, the screenshots show the first game of the game, and the 3rd game. The last 3 games are still in progress, so the screenshots of those games will have differences in their layouts. [Content Information] First off, we'd like to state that this game contains adult material of a yuri nature. This material includes, but may not be limited to, descriptions of blood, gore, nudity, and excessive murder fantasies. Additionally, this game includes dream sequences and fantasies that depict c9d1549cdd

What's new:

- Hot For the first time in several days, Megumi had great plans for her day. "I'm going to sleep. I'm going to exercise. Play more music. Do my homework. For at least two days, I'm going to look forward to every single moment." To Yukina's delight, that was exactly what Megumi did. She'd wake up at 9 in the morning, go for a breakfast-subsidy jog, do her homework, play some music, and do more homework. At noon, she'd go to the library to study some more. From 2-5, she'd spend her time relaxing, spending her money, and playing with her phone. Then, until dinner, she'd eat and play with her phone some more. After dinner, she'd lock herself inside her room and study for a few more hours. This was, in a nutshell, her routine for at least the next two days. More than anything else, to Yukina's delight, Megumi was exercising. She was certainly doing it three times a week, and it seemed that she'd been exercising more and more every single week since they'd started their current strength program. She was gaining weight, but it was nothing like she'd ever seen on Megumi before this. Yukina had always thought of the Megumi who used to scream over food as some sort of monster of all things female. She was fat, sure, but nothing to the extreme she saw on Megumi now. She was gaining weight much faster, and some weights had some serious wear and tear on them... or she had grown much stronger. Either way, she was steadily gaining weight. She also seemed to be getting stronger... after two hours of running on a weekday, she'd have more energy than she'd had in... well... probably at least a week. And a lot more confidence. Of course, along with all that came a new vigor of life. With the downward trend in her grades, Megumi was more or less lost in her textbook, her notes, and her work for the past few days... she hadn't shown any real interest in anything at all. Even food had become something for which to be grateful, rather than something delicious to be enjoyed. Yukina had been almost surprised when her older sister had told her that she felt like they should treat themselves to a three course meal for the great times they'd have together. Something that
