VLC is the best available free video player out there, but this is no reason to praise it in any way. I was pleasantly surprised to find this free video player has some interesting features, too: ... Video downloader ... Transcoding with presets on the fly ... The ability to control playback through a smartphone or tablet app ... Ability to sync playback between multiple computers ... Crippled ads ... Allows video to be embedded in web pages ... Auto-syncs with external media libraries ... Ranks among the best media players in the world So, does it really deserve a place on your computer? How to play.avi and.mkv video files? How to convert.avi to.mkv using fast free video converter?. What is the best video converter for.avi to.mkv format? How to convert.avi to.mkv video format using free software?.avi to.mkv video converter? How to convert.mkv to.avi? Or does it just appear on.mkv video format, then once you play it, it "updates" itself? If it is the case, please let me know, it would be great to know it. A: ok i had no idea about the best media player, anyway this free video player called "kodi" is
